

*Dear Mr. and Mrs. XlastnameX,*

*Thank you for considering our offer on your beautiful home. We were hoping to get this letter over to you sooner but got stuck trying to find the right words to convey how much we really loved it.*

*It's probably simplest to say we thought Xstreet addressX was truly special. Right away, we could really see all the love and care you put into building your home — from the beautiful kitchen and living areas to the well finished basement. There were just so many features of your home that called out to us.*

*We have been married since xyearx and we are finally ready to purchase our first home together and make a family all our own, so we couldn't help but notice your gorgeous family photos on the wall. The space you have created for your family is full of tender love and care, and it shows in the property itself. Your home was easy to fall in love with-- we envisioned talking to our families gathered in the living room as we finished preparing a holiday meal in the impeccable kitchen. We also really loved the idea of inviting friends over*

*for a get together, gathering everyone around to work on our art projects we would create in the basement.*

*I'm a xjob titlex at xcompanyx and xsimple job descriptionx. My xpartnerx is a xjobtitlex at xcompanyx and xsimple job descriptionx. Together, we make a solid living and are hardworking individuals—there should not be any financial issues with the loan.*

*In closing, the home we purchase will be the one we start our family in. We would be so honored to have that home be at xstreet addressx.*

*Thank you so much for your time and consideration,*

*xnamex & xnamex xlast namex*
